Jane Henney, M.D.  
Commissioner, Food & Drug Administration  
5600 Fishers Lane, Room 1471  
Rockville, MD 20857

Dear Dr. Henney;

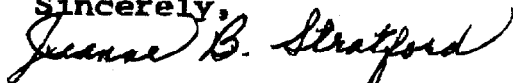

I am writing to add my voice to the chorus of concerns currently being raised in the EU and now in the U.S. concerning the overuse of antibiotics as growth promoters and milk production stimulators in livestock.

PLEASE use all the power and influence you may possess, as quickly as possible, to block and ban the animal uses of ALL growth-promoting antibiotics used in human medicine!

I am also gravely concerned about the increasingly widespread introduction and application of genetically-engineered seed stocks into our food supply .... so far, all of those "unidentified mutants" put out into the marketplace without any proper labeling, for unsuspecting public consumption!

Thank you for using the power of your office on behalf of those of us whose voices are not being heard on the above issues!

Sincerely,

Jeanne B. Stratford  
200 Annahy Drive  
Fortuna, CA 95540
